USMAN SAQLAIN

Lead Drupal Developer / Technical Solutions Architect

Chicago Metropolitan Area, IL | 630-802-7363 | usaqlain01@gmail.com | US Security Clearance: Active

Hands-on Drupal Architect with 15+ years of deep Drupal 8, 9, 10, 11 and Decoupled & Distributed Drupal expertise. Proficient in Full Stack, Platform, APIs, Tailwind, AWS/Azure Cloud Infrastructure, CI/CD Delivery & AI-Enhanced Smart Features and AI-Leveraged rapid development. Skilled in Integrating Drupal with ReactJS, Python, Java Spring Boot, Salesforce, Moodle LMS and AI Tooling.

TECHNICAL SKILLS

Programming Languages:	**PHP8, Python, SQL, JavaScript, TypeScript, Node.js, HTML5, CSS3, Twig**
Frameworks & Libraries:	**Drupal 10/11 Decoupled, Moodle LMS, React, Next.js, FastAPI, Tailwind, Spring Boot**
Database, Cache & Storage:	**MySQL, S3, PostgreSQL, ElasticSearch, Varnish, Redis, DynamoDB, VectorDBs, Solr**
AI/LLM Proficiencies:	**Claude, ChatGPT, Gemini, Cursor, Llama, Ollama, Agentforce, Local Task Agents**
AI Solutions & Tooling:	**RAG, MCP, LangChain, LangGraph, CrewAI, n8n, Claude Code, Agentic Workflows**
Frontend & Theming:	**Tailwind CSS 4, Bootstrap 5, USWDS, WCAG 2.2, Section 508, Sass, Drupal Theming**
Cloud Infrastructure:	**AWS (EC2, S3, IAM, VPN), Azure (Container Apps, DevOps, App Service), Acquia**
CI/CD & DevOps:	**Azure DevOps, Docker, Lando, Jenkins, CircleCI, GitHub Actions, AWS Code Deploy**
Testing & Monitoring:	**Playwright, Wiz, PHPUnit, Behat, Selenium, JMeter, SonarQube**
SDLC & Management:	**Agile, Scrum, Jira, GitHub, Sprint Planning, BRD-to-MVP Delivery, Migrations**
Technical Tools:	**VSCode, Terminal, WSL2, GitLab, DDEV, LinuxSE, Docker, Composer, VirtualBox**

PROFESSIONAL EXPERIENCE

Entarian / Sev1Tech (Federal Contractor**: CISA CEEOSS)** — Remote | Arlington, VA
Senior Drupal Developer / AWS Cloud Architect — Apr.2026 – Present

Platform engineer on TRIPwire (tripwire.cisa.dhs.gov), CISA's counter-IED portal, using Drupal 10, PHP 8.3, Docker, AWS EC2/S3 with DHS Public Trust clearance.

- Containerized TRIPwire's Drupal backend & integrated with CODA (ReactJS/Spring Boot).
- Wrote custom Drupal modules (tw_cisa_only_access, tw_user_history, tw_registration) for user lifecycle management, registration flows, and content access control.
- Integrated Tailwind CSS 3.4 into the Drupal theme layer with collision-safe prefixing against Bootstrap 5, delivering Section 508 accessibility compliance and responsive design.
- Overhauled authentication & registration using Okta SSO and DHS PIV credential integration.
- Performed security audit across 48 roles and 55,000+ users, surfacing critical vulnerabilities.
- Maintained air-gapped infrastructure, S3 & EC2 certificate rotations and dev rebuilds.
- Led weekly production patching, vulnerability remediation, and Wiz security compliance.
- Authored advisories including the USWDS migration plan, Playwright/Drupal JSON:API framework for 48-role coverage, and scripted permissions audit with remediation strategies.
- Collaborated with CISA stakeholders to translate DHS requirements into SOPs and working POCs, vetting open source libraries for security and infrastructure compliance.
- Worked with CISA's AI team on GPT-4o RAG solutions, tokenization parameters, and retrieval.

GENESYS WORKS / MASTERNODE (Contract**: C2C)** — Remote | Houston, TX
Lead Developer / Technical Architect — Nov.2025 – Apr.2026

Delivered MVP for Alumni Portal, a professional social platform for Alumni across seven U.S. cities, using Drupal 11, Tailwind, Moodle LMS, Next.js, Azure, Salesforce and Auth0.

- Developed 80% of the platform, wrote 10 custom modules and integrated 32 contrib modules.
- Built a Next.js Partner Portal and React Analytics Dashboard using decoupled architecture.

- Led the technical team, working directly with the CIO on deliverables, tech-stack selection, AI integration strategy, and performance metrics, and drove partner and vendor relationships.
- Built a 7-integration ecosystem connecting Drupal 11 to Salesforce, Moodle LMS, CareerSpring, FormAssembly, Agentforce AI, Acquia DAM, and Auth0 using APIs and custom connectors.
- Engineered Azure API gateway for Salesforce ingestion with Spring Boot on Azure Functions, containerized via Azure Container Service, persisted in Postgres for Drupal consumption.
- Built a comprehensive Moodle LMS module (gw_lms) including seven data-sync services, token-based authentication, admin settings dashboard and custom UI wrapper for courses.
- Integrated Agentforce Agent as an AI-powered assistant (gw_assistant) with JWT caching, automatic refresh, and admin-configurable display.
- Adopted AI-assisted workflows and tooling to assist & enable the team, reaching 3X velocity.
- Wrote Alumni Connect Algorithms (gw_connect) using activity, cohort, and location matrices.
- Created admin UI dashboards (gw_restapi) for REST APIs, LMS, and alumni survey settings.
- Provisioned containerized local via Docker and end-to-end CI/CD pipelines in Azure DevOps to deploy production workloads onto Azure Container Apps and Azure App Service.

CONCEPT PLUS LLC (Federal Contractor**: HHS USA)** REMOTE | FAIRFAX, VA
Senior Drupal Developer **DEC.2024 – OCT.2025**

Developed, Maintained, Deployed and Migrated Health & Human Services Applications.

- Developed new features, proposed novel solutions and integrated reliable APIs & services.
- Deployed code & configurations to AWS Cloud and maintained robust cloud infrastructure.
- Streamlined FE using USWDS (United States Web Design System) & Reusable Paragraphs.
- Wrote connector modules and designed custom blocks & plugins for USAJOBS Portal API.
- Archived and migrated reusable components & configurations between applications.
- Maintained security features, firewalls & permission policies and integrated AMS SSO login.
- Enhanced Unified Web Portal's search using Apache Solr and optimized caching via Redis.
- Wrote automation scripts & Ansible configurations for content backup & delivery pipelines.
- Established remote dev ENVs utilizing WSL, DDEV and Docker based containerd sandboxes.

MASTERNODE INC. (Cofounder**: Self-employment)** CHICAGO, IL
Co-Founder & Tech. Architect **MAR.2022 – DEC.2024**

Co-founded Apps to pool & deploy Blockchain Nodes on AWS Cloud. Developed Drupal PHP BE and FE Portals using Angular SPAs & JS libraries for data visualization & plotting.

- Built Web 3.0 API Gateway as a Drupal 9 Service Module for chain analysis & polling queues.
- Integrated and customized D3.js & Charts.js libraries to enhance data visualization & plotting.
- Implemented FE grid layout and reusable components workflow using Emulsify toolkit.
- Designed plugins to execute Smart Blockchain Contracts and trigger the APIs from the GUI.
- Wrote PHPUnit tests and performed Regression & Smoke testing periodically.
- Maintained SEC, CFTC, FINRA and WCAG guidelines to uphold compliances and clear audits.
- Built AI-assisted features using Jupyter Notebook & GPT for On-Chain/Web3 code generation.

HNI CORPORATION GLEN ELLYN, IL | MUSCATINE, IA
Senior Drupal Developer **AUG.2019 – MAR.2022**

Built complete E-Comm Solutions, provisioned Cloud Infrastructure & CI/CD Pipelines.

- Migrated legacy Drupal 6, 7, and WordPress Apps into containerized Drupal 8 & 9 ENVs.
- Installed ElasticSearch engine and indexed data for consistent cross-site searchability.
- Implemented Lando Service to simplify Docker containerization & automated ENV builds.

- Administered modules, themes & vendors and optimized Composer version constraints.
- Researched and integrated open-source libraries & 3rd party APIs into distributed platforms.

WALGREENS / PHOTON I.T. — Deerfield, IL
Software Engineer — Sept.2018 – Aug.2019

Transitioned entire Oracle Ecosystem to a modern PHP CMS and Optimized performance.

- Migrated Oracle data as Drupal nodes by object relationship mapping to model new entities.
- Decoupled the frontend using AngularJS SPA, and served via custom API Gateway Module.
- Optimized DBs, configured CDNs, and integrated Varnish Cache to reduce latency.
- Identified bottlenecks through rigorous load testing and resolved them systematically.
- Saved millions replacing Oracle Ecosystem & support contracts using Drupal + Angular Apps.

BUILTIN INC. — Chicago, IL
Developer — Jan.2018 – July.2018

Built listing Apps on distributed cloud containers and Integrated 3rd party APIs & services.

- Built a modern Drupal Multisite with automated pipelines & workflow per metropolitan area.
- Prototyped and reverse-engineered popular features and wrote Crawlers to automate listings.
- Administered P2C migration for the Server Infra. and provisioned the Digital Hybrid Network.
- Delivered rapid buildouts under limited time and minimal resources pressure for this startup.

CAXY INTERACTIVE — Chicago, IL
Web Developer — Apr.2015 – Jun.2017

Built & Maintained a variety of Web/Mobile Apps using PHP MVCs, Drupal CMS & JS Frwks.

- Built Full-Stack PHP & Drupal CMS solutions for Chicago Field Museum & Cornell University.
- Contributed Modules & Patches and volunteered as a module maintainer for drupal.org.
- Wrote Unit & Functional testing suites for Drupal, Symfony and Laravel Applications.
- Designed Responsive & WCAG-compliant UI/UX, and Optimized SEO for Web Applications.
- Supported multiple projects simultaneously, enhancing time & workflow management skills.

EDUCATION

NORTHEASTERN UNIVERSITY — Chicago, IL
B.Sc in Computer Science — Dec.2011

CERTIFICATIONS

ACQUIA CLOUD PLATFORM — Backend
Drupal 8 Foundations — May.2016

AMAZON WEB SERVICES — Associate
Solutions Architect Assoc. — Oct.2017
